

Your Name and Organisation Jacky Vise / Outsider

Thank you for hosting one of the open space sessions on relevant practice experience/needs to share and potentially build on to achieve transformational change! Please use this template to record your main results as input for the co-chairs' report. And simultaneously answer the question "How does this help us to identify which changes need to happen?" in slide (feel free to ask one of the participants to support you)

MARINE GOVERNANCE OUTSIDE NATIONAL JURISDICTION

Your Topic for exchange (basic description of your experience/ challenge/ hypothesis):
 Can we imagine a mechanism coming out of the BBNJP process that will ~~take~~ ^{deliver} biodiv. outcomes? ~~How~~ Are we taking the "pressure" of from the sectors (if we create an agency to deal with biodiv)? What is the possible connection btw. CBD and BBNJP

Basic overview of participants (please ask for this at the beginning of the session):
 Rough number of participants: 15 participants
 Rough overview of represented organisations/countries:
 US, CA, Fisheries & oceans Ca, NO, SAfrica, New Zealand, HELCOM, FNI, UK

Did not identify right mech. Easy to find "weaknesses" in existing processes. Cooperation is essential but no one can identify the realistic options

How does this help us to identify which changes need to happen?
 Further develop Model for EBM
 Regional mechanisms important - regional solutions
 Mainstreaming - work with sectors important
 The Camran Approach has been useful/had successful implementation
 Further empower existing mechanisms?
 Avoid turf battles & polarization. Many "trust issues"
 Build on EBSA process
 Identify aspiration and needs for coordination
 "joint/common and building trust"

Form follows function -
