How does this help us to identify which changes need to happen?

① Vision → not just targets + goals.
↳ what elements?
Who should determine targets? → process issue
② - how to make sure they are engaged?
How do consultations feed into broader process? → Need ~~&~~ constant engagement.
③ * Imbalance of power relations at decision-making level? Need actions to empower.
Laws on gender balance?

④ Institutionalise IPs. / Mainstreaming = little action.
↑ ex. SDG's

- Gap between E_g + practical implementation
Maybe need something in post-2020 to close this gap.

⑤ - Need to signal commitment somehow

⑥ Do we need regular gender sessions/sensitization
